### About College

Janta College Bakewar was established in the year 1959, with its motto "*Achchhe Vidyarthi Achchhe Nagrik*". Today, the institution holds the reputation of being one of the best educational institutions not only in India but also abroad with a rich and resourceful alumni network. Besides our focus on quality education across several academic streams through our learned and qualified faculties, we are working with society at large, for their comprehensive upliftment. Our institution is affiliated with C.S.J.M. University, Kanpur, and has one of the best infrastructures, lush green campus, rich library, well equipped laboratories, science and agriculture museum, developed dairy and agricultural farm including fruit orchard. Our staff and students work together throughout the academic year with keen focus on multidimensional development.

Situated in the town of Bakewar, Janta College is strategically situated, approximately, at a distance of 23 Km from District head quarter Etawah, 140 Km from Kanpur, 212 Km from Lucknow, 140 Km from Agra and 340 Km from Delhi. Etawah City is well connected to regular Rail and Bus services to all major cities of the state.

### Purpose of Seminar

In this rapidly evolving era where the boundaries are constantly being pushed and new frontiers are being explored. The development of any country in the society can not achieve its goal without the good students having scientific knowledge and their applications. The present seminar provides a forum to young researchers, scientists, professors, postgraduate students and research scholars working in different fields of Science and Technology across the country to share their knowledge in the development of new theoretical and experimental work.

### Theme of the Seminar

The principal objective of this seminar is to inculcate scientific temperament and temptation among the student and the interdisciplinary researchers in various streams of Science and Technology. The academic event will be focused on the following branches of Science and Technology:

- ✦ Physical Science
- ✦ Life Science
- ✦ Material Science
- ✦ Bio-Technology & Microbiology
- ✦ Climate Change
- ✦ Artificial intelligence and machine learning
- ✦ Chemical Science
- ✦ Agriculture Science
- ✦ Environmental Science
- ✦ Information Technology
- ✦ Agriculture Engineering
